

## Overseas visitors

As an overseas visitor, you will be required to pay for your treatment if you are unable to provide us with:

- A valid Medicare Card; or
- Evidence of your eligibility under the RHCA with Australia; or
- Evidence of your refugee/asylum seeker status.

## Health or travel insurance

Medical fees for patients who are not eligible for Medicare are not subsidised by the Australian government.

As medical treatment can be expensive, the Department of Home Affairs encourages all prospective visitors to Australia to ensure they have adequate health insurance to meet their health needs.

You will need to contact your insurance provider to check your level of cover, request a written guarantee of payment and provide this to one of our overseas patient liaison officers.

Please contact our overseas patient liaison office if you need advice or assistance.
